The Anatoguation of Landondes.—There is a grow ing tendency in this age to appropriate the most expressive works of other languages, and after a while to incorporate them into our own; thus the word cophalic, which is from the Greek, signifying "for the bead," is now becoming popularized in connection with Mr. spaketing's great headache remedy, but it will soon be used in a more general way, and the word Cephalic will become as common as Electrotype and many others whose distinction as foreign words has been many others whose distinction as foreign words her beautiful. s common as Electrotype and many others whose dis metion as foreign words has been worn away by common age, until they seem "pative and to the manor born."

Draw Madan: — The reputation of the Medical Discovery, in curing all kinds of humors, is so well established by the unanimous voice of all who have ever used it, that I need not say anything on the subject, as the most skillful physicians and the most careful Druggists in the country are unanimous in its praise.

In presenting the Medical Discovery to your notice, I do it with a full knowledge of its curative power, in relieving all, and curing most of those discases to which you are unfortunately so liable. That most excruciating disease to an affectionate mother,

Bridget. — Missus wants you to rend her a box of Ge-phalic Giue; no, a bottle of Frepared Fills — but I'm thinking that's not just it naither; but perhaps ye'll be afther knowing what it is. Ye see abo's nigh dead and gone with the Sick Headache, and wants some more of Is cured as if by a miracle; your own temper is restored to its natural necessary and your labe from short and fretful naps to calm and sweet slumbers; and the Medical Discovery becomes a fountain of blessing to your husband and household.

In the more advanced singes of CANEER that same as relaived her before.

Your stomach is

Constipation or Costiveness.

No one of the "many ills that firsh is hair to" is a prevalent, so little understood, and so much regiected a Contiveness, often originating in carelessness, or seder tary habits. It is regarded as a slight disorder, of t little consequence to excite anxiety, while in reality your food distresses you, and you can only take cortain kinds, and even of that your system does not get half the nourishment it contains, as the acrimonous fluid of the canker cats it up: then your complexion loses its bloom and becomes sallow and greenish, and your best day is gone. For want of nourishment your system becomes loose and flabby, and the fibres of your body be come relaxed. Then follow a train of diseases which the Medical Discovery is peculiarly adapted to ititie consequence to excite anxiety, while in reality it is the preservor and companion of many of the most fattl and dan gerous diseases, and unless early cradicated, it will bring the sufferer to an untimely grave. Among the lighter evils of which Costiveness is the usual attendant are Headache, Colic, Rheumatism, Font Breath, Files, and others of like nature, while a long train of frightful diseases, such as Mailgnant Fevers, Abcases, Dysentery, Diarrhom, Dyspeysia, Apoplexy, Epilepsy, Parsiysis, Hysteria, Hypochondrisis, Melancholy, and Insanity, first indicate their presence in the system by this alarming symptom. Not unfrequently the diseases named originate in Censtipation, but take on an independent existence unless the cause is eradicated in an early stage. From all those consederations, it follows that the disorder should receive immediate attention whenever it occurs, and no person should neglect to get a bex of Cephalic Pills on the first appearance of the complaint, as their timely use will expel the insideus approaches of disease, and destroy this dangerous foe to human life. How many thousand of poor women are suffering from this disease and pining away a miserable life, and their next door neighbor does not know the cause. I wish to impress on your mind that good old proverb, "An ounce of prevention is better than a pound of cure," In the

it soft and silky in its texture, and causing it to curl readily.

The great celebrity and increasing demand for this unequaled preparation, convinces the proprietor that one trial is only necessary to satisfy a discerning public of its superior qualities ever any other preparation in usb. It cleanars the head and scalp from dandrulf and other cutamous discases, causing the hair to grow inxurantly, giving it a rich, soft, glossy and flexible appearance, and also, where the hair is loosening and thinning, it will give strength and wiger to the roots and restore the growth to hose parts which have become bald, causing it to yield a resh covering of hair.

hose parts which have become baid, causing it to yield a reak covering of hair.

There are hundreds of ladies and gentlemen in New York who have had their hair restored by the use of this Invigorator, when all other preparations have failed. It. M. has in his possession letters innumerable testifying to the above facis, from persons of the highest rediscussibility. It will effectually prevent the hair from turning until the latest period of life; and in cases where the hair has already changed its color, the use of the invigorator while with certainty rentors it to it to its original has, giving its dark, glossy appearance. As a perfume for the tolist and a Hair Restorative it is particularly recommended, having an agreeable fragrance; and the great facilities it affords in dressing the hair, which, when moist with the Invigorator, can be dressed in any required form so as to pressrye its place, whether plainfor in durls; hence the great demand for it by the ladies as a standard tolistarticle which none ought to be without, as the price places it within the reach of all, being Only Twenty-Five Cents

per bottle, to be had at all respectable Druggiats and Perfumers.

L. MILLER would call the attention of Parents and Guardians to the use of his Invigorator, in cases where the children's hair inclines to be weak. The use of it lays the foundation for a good head of hair, as it removes any impurities that may have become connected with the scalp, the removal of which is necessary both for the health of the child, and the future appearance of its Hair.

Sufferers by this disorder can always obtain speedy relief from those distressing attacks by using one of the Cephalic Pills whenever the symptoms appear. It quiets the evertanked brain, and soothes the strained and jarring nerves, and relaxes the tension of the stomach which always accompanies and aggravates the disordered

GREAT DISCOVERY.—Among the most important of all the great medical discoveries of this age may be considered the system of vaccination for protection from Small Post, the Cephallo Pill for relief of Headache, and the use of Quicine for the prevention of Favers, either of which is a sure specific, whose benefits will be experienced by suffering humanity long after their discoverers are forestien.

If f Did you ever have the Elek Headache? Do you remember the throbbing temples, the fevered brow, the loathing and disquast at the sight of foed? How totally unfit you were for pleasure, conversation, or study? One of the Cephalic Fills would have relieved you from all the suffering which you then experienced. For this and other purposes you should aways have a box of them on hand to use as occasion requires
